

Secondary Insurance Information

All student-athletes injured during official interscholastic play/practice are covered by a secondary insurance policy. The policy will cover medical expenses not covered by the student-athlete's primary insurance company up to \$10,000 or policy limit.

The secondary policy is administered by Bollinger Insurance. All student-athletes who have submitted a complete Athlete's Health Record (consisting of Medical Clearance, Release of Claims/Informed Consent and Emergency Information documentation) and included on a current TSSAA Eligibility Report are covered by this policy. This includes all middle and senior high school student-athletes.
