## Shelby County Schools Partners with Poplar Healthcare to Offer COVID Testing for Students & Employees

Shelby County Schools announced plans to offer routine COVID-19 testing to all students and employees for the upcoming academic school year. The program will make testing available on-campus at each school on a bi-weekly basis. The testing program, called Test to Protect Our Schools, is free for students and staff. The program provides an additional tool to ensure the health and safety of faculty and students in the midst of the COVID-19 pandemic.

"This testing program will help us track and help prevent the spread of the virus," said Shelby County Schools Superintendent Dr. Joris M. Ray. "The testing program allows the Health Department to take swift action in the event someone tests positive for COVID-19. In-school testing, along with our established cleaning and masking protocols, will help us RETURN STRONGER as we prepare to start the school year with in-person learning throughout the District."

Test to Protect Our Schools will begin on August 9, 2021, which is the first day back to school for Shelby County Schools. Testing is optional, but participation is encouraged. Parents and guardians can sign up now to consent for their child(ren) to participate in the program or download a consent form and return it to their child's school. Unlike earlier versions of the test with a deep swab, this version consists of a quick swipe of the outer nostril. Results are ready within 24 hours.

## Required Professional Development

All Athletic Directors and Coaches are required to complete the 2021-22 SCIAA Professional Development Training by September 7th. The SCIAA has ordered the course "Engaging Effectively with Parents" through NFHS Learn. If you have not received the email on how to begin the course, please check your spam i.e. junk, clutter etc... for an email from admin@nfhslearn.com. For individuals that may have already completed this course, please contact your sport coordinator. Please include a copy of your completed certificate.

Recommended for: Coach, Administrator

### Engaging Effectively With Parents

Elective Course

Join us in the Test to Protect Our Schools program to keep our school community safe!

#### What is COVID-19?

The virus that causes COVID-19 can spread through respiratory droplets when an infected person is nearby. Symptoms may appear 2-14 days after someone is exposed to the virus. Some people who are infected may not ever show symptoms, which is why everyone who is not vaccinated should take preventive measures and get tested regularly when available.

#### What is the COVID-19 vaccine?

COVID-19 vaccines are authorized under an emergency use authorization by the US Food and Drug Administration (FDA) for individuals over 12 years of age. As of May 2021, more than 60% of American adults had received at least one dose of a COVID-19 vaccine. All data indicates that the vaccines are both safe and highly effective at preventing COVID-19.

#### What is a COVID-19 test?

A quick test - a simple painless nose swab - that will determine whether you have the virus that causes COVID-19.

#### Why is our school testing?

Testing helps us to catch any cases of COVID-19 before they become outbreaks. In almost half of COVID cases, the individual does not experience symptoms but can still spread COVID-19, which is why testing everyone regularly helps to prevent spread and keep our schools open safely.

#### Will my student have to miss class to be tested?

The testing itself takes a matter of seconds for each student and will easily fit into their day without disrupting learning. Routine testing helps to identify

and isolate positive cases before they spread. Minimizing spread in school helps keep our school open and all our students in class more often!

#### What if someone in my student's class tests positive?

If your student was exposed to someone who has COVID-19, we will call you and discuss if your student needs to stay home to be safe. A COVID-19 test after a few days will determine if your student is infected and needs to quarantine and seek care, or if they can safely return to class.

#### What if my student tests positive?

We will ask your student to quarantine at home. We recommend you contact your student's pediatrician for medical care and recommended treatment.

All we need from you is a signed permission form for your student
